SKILLS

Programming Languages: JavaScript Python C

HTML5 CSS3 MySQL

Frameworks and Libraries: React Next.js Redux

Tailwind CSS SCSS Framer Motion Material-UI

Shadcn/ui

Miscellaneous: API Integration Responsive Design

Version Control (Git & GitHub) Visual Studio Code

EXPERIENCE

Frontend Web Developer

BuddhiMatrix Pvt. Ltd. (169pi.ai)

📅 November 2024 - Present

- Developed dynamic and responsive web applications using React, Next.js, Redux, Tailwind CSS, Material-UI, Shadcn, and Framer Motion.
- Engineered pixel-perfect, accessible, and high-performance UI components.
- Optimized frontend architecture for scalability, maintainability, and seamless user interactions.
- Ensured cross-browser compatibility and adherence to web accessibility standards.
- Collaborated on UI/UX strategies to enhance usability and design consistency.

Frontend Web Developer

StartUpodero Ventures Pvt. Ltd

📅 July 2022 - November 2024

- Built responsive and high-performance web applications using React, Redux, Tailwind CSS, JavaScript, HTML5, and CSS3.
- Developed intuitive UI/UX solutions to enhance usability, accessibility, and overall user engagement.
- Designed and implemented visually appealing, functional, and scalable interfaces aligned with project goals.

EDUCATION

B.Tech - Mechanical Engineering

KIET Group of Institutions, Ghaziabad, U.P., India

📅 2017 - 2020

📍 CGPA: 8.13/10

CERTIFICATIONS

- React - Redux - KG Coding Certification - 2022
- JavaScript - KG Coding Certification - 2021

PROJECTS

169pi

AI Research Organization

📅 (React, Next.js, Tailwind CSS, Framer Motion, JavaScript)

- Led the frontend development of 169pi.ai, an AI-powered platform, utilizing React for dynamic UI components, Next.js for optimized performance, and Tailwind CSS for responsive, custom styling.
- Developed key features of the platform, enhancing the user experience through intuitive design, smooth animations, and interactive UI elements using Material-UI, Shadcn, and Framer Motion.
- Owned the majority of the frontend work, driving the integration of AI-powered elements into the interface while collaborating with a cross-functional team to ensure a seamless and user-friendly product.

Alpie

AI Model

📅 React, Tailwind CSS, shadcn/ui, Framer Motion, JavaScript

- Worked as a frontend developer in a team to build "Alpie," an AI-powered chat assistant.
- Designed and developed an intuitive, responsive UI, ensuring a smooth user experience across devices.
- Integrated real-time API responses, optimizing UI rendering for fast and efficient interactions.
- Implemented animations and micro-interactions using Framer Motion to enhance engagement.
- Utilized state management techniques for better performance and scalability.
- Ensured accessibility and optimized UI components for seamless navigation and usability.

Shras Holidays

Travel Website

📅 JavaScript, HTML, CSS & Bootstrap

- Designed user-friendly, responsive layouts that enhanced user experience.
- Implemented a smooth browsing experience for travelers, making holiday planning effortless.
- Developed a search function to help users find and book travel packages easily.
